RE: SOK Global Sports & Kuntz Soccer Complex

To whom it may concern

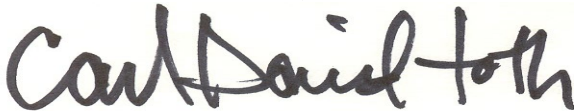

As a lifelong resident of Indianapolis and a member of the rugby community in various capacities for fifty years, I enthusiastically support your efforts in developing the sport of Rugby at the professional level in Indianapolis.

I have seen the growth of the sport in Indiana starting with a few collegiate and city adult men's clubs in the 1970's. In the 1980's, more collegiate and city adult men's clubs were added. In addition, 1980's saw the start of women's collegiate and city adult women's clubs. Finally, the 1990's saw the establishment and development of youth and high school rugby clubs with the formation of Rugby Indiana (Indiana Youth Rugby Foundation).

Rugby Indiana celebrated our 30th year of servicing youth and high school rugby clubs in this state. The interest continues to grow. With the rehabilitating of Kuntz Soccer Complex (old CYO Field), it will add visibility and help the growth of the sport on all levels for youth, high school, collegiate, and adult clubs. Your efforts will enhance the growth of rugby as well as showcase the core values of the sport. World Rugby, our governing body, has established integrity, passion, solidarity, discipline, and respect as the defining character-building characteristics of rugby.

If there is anything I can do to help ensure your success, let me know. Again, thank you for your efforts.
