To Whom It May Concern,

Herron Classical Schools is a classical, college preparatory liberal arts and sciences network of three schools that prepares students to be world-class citizens. We believe deeply in the work education plays in shaping informed and civic-minded adults for Indianapolis.

As part of that mission, we believe in engaging the urban community and serving as a catalyst for renewal. Recently, we met with Will Magie, General Manager of SOK Global Sports about their plans to redevelop Kuntz Sports Stadium in partnership with the City of Indianapolis Parks and Recreation Department. This redevelopment aligns with our core values as it is an opportunity for our network to deepen its ties to the community and activate the space athletically for our and other Indy scholars.

We are excited about this idea and hope to work with stakeholders to support this investment in our community.

Respectfully,

Janet H. McNeal
President, Herron Classical Schools
