

To whom it may concern,

I have recently been in contact with SOK Global Sports regarding their proposed plans for the renovation of the Kuntz Sports Complex on West 16th Street in Indianapolis, IN.

I am excited about this project as an opportunity to provide a more professional facility for key events that bring visibility to rugby in the Midwest and Nationwide. Upon completion of this project, our group would be interested in programming matches, youth clinics, championship events, and tournaments (subject to the cost of rental) at this world class rugby facility.

I offer my support to SOK Global Sports and the City of Indianapolis in bringing this project to life.

Sincerely,
Jamie Frech
