

April 11th, 2023

To whom it may concern,

SOK Global Sports has shared with Michigan State their plans and mission surrounding the renovation of the Kuntz Sports Complex on West 16th Street in Indianapolis, IN

This facility would help increase the visibility and exposure of Midwest rugby across the country and give teams like our own a chance to train and compete on a bigger stage. It is a stage that can be used by youth, collegiate, professional, and even international talent levels for training, camps, and high-profile competitive events.

We fully support SOK Global Sport and the City of Indianapolis in their efforts to establish a high-performance facility for all.

Kind Regards,

Josh Kipp
