To Whom It May Concern,

The Ohio State Men's Rugby Club has recently been in contact with SOK Global Sports regarding their proposed plans for the renovation of the Kuntz Sports Complex on West 16th Street in Indianapolis, IN.

In the interest of growing our sport in the Midwest and nationwide, the youth, collegiate, and professional rugby opportunities brought forth by this project excite our group. Upon completion of this project, our group would be interested in programming matches, youth clinics, championship events, and tournaments (subject to the cost of rental) at this world class rugby facility.

We offer our full support to SOK Global Sports and the City of Indianapolis in bringing this project to life.

Kind Regards,

John Meek
