Zionsville, IN 46077

To Whom It May Concern,

We are honored to write to you a letter of support and intent to collaborate on behalf of White River Rugby Football Club with SOK Global Group. We were beyond excited to hear of a professional Rugby team possibly coming to Indianapolis, but upon listening to SOK's plan of development we can see that the community benefits will go way beyond ticket sales. This letter is to express in detail White River RFC's commitment to growing the sport of Rugby in Central Indiana and aligning those interests with SOK Global Group's plan to do the same.

White River RFC 501c3, established in 1999, has seen intermittent success on the pitch throughout its 24-year run. Our recent plan beginning in 2022 was to build WRRFC into an organization that can reliably maintain success on and off the pitch. As such WRRFC will be able to expand its interests beyond the immediate organization and lend assistance where needed to the surrounding greater Indianapolis area. The first major step in laying proper foundations for a sustainable organization was to recruit and elect an affective leadership team. WRRFC now has a President, Vice President, Treasurer, Match Secretary, Social Secretary, 3 Directors at large, Head Coach, Forwards Coach, Backs Coach, and Strength and Conditioning Coach. We also have a 3 year Growth Plan which you may review on page 2. River has also an established relationship with Carmel's local American Legion Post 155 and enjoys the company of several Military Veterans in our organization. We also enjoy an integration and pool of resources with Carmel Highschool and youth Rugby. Our core Values are: "Pride", "Respect" and "Growth".

With our Mission Statement reading: "To grow the sport of Rugby in central Indiana by capturing the hearts of its citizens and inspiring club members of all types to be the best version of themselves.", we believe that the interests of WRRFC and SOK Global Group are closely aligned.

Partnering with SOK Global Group would mean an instant increase in the velocity of the growth of the sport in northern Indianapolis. From having access to professional players to assist with technical savvy on the pitch, to enjoying the use of upgraded Rugby facilities for tournaments, fundraising, skills sessions for youth, there's no end to the possibilities. Please consider this letter as an informal commitment from WRRFC, and ourselves with our individual resources, to do whatever is in our power to assist SOK Global Group in achieving their goals.

Sincerely,

Payton Sanders
